PRIMARY Granate Profundo #5A0A18 Deepened wine red. Velvet-curtain romance, stage-light drama. Richer presence than a standard wine red without losing the romantic register.	PRIMARY Oro Luminoso #E5B547 Luminous warm gold. Candlelight and stage spotlight. Glows against deep blacks. Premium and elegant, distinct from cool streetwear metallics.	PRIMARY Negro Onyx #0A0A0A Near-true onyx black. Maximum contrast and gravitas. The traje de charro under stage light. Anchors the cinematic identity.

STRATEGIC APPLICATION

BEST FOR

Album art, tour posters, key visuals, music video color grading, investor and sponsorship decks, premium category partnerships (spirits, fashion, watches, automotive luxury), arena-scale campaigns.

EVERYDAY USAGE

For day-to-day social, behind-the-scenes content, and daytime press, lean on Hueso Cálido as a primary background with Granate Profundo and Cobre Encendido as warmth anchors — keeping Negro Onyx and Oro Luminoso reserved for hero moments.

TRADEOFFS TO MANAGE

Built for dark, dramatic compositions — daytime and casual content requires deliberate use of the supporting palette. The black + deep red + bright gold combination is archetypal in mariachi; typography and photography direction must work hard to keep this feeling distinctive rather than expected.
